FIRE DEPARTMENT. -The conflict in regard to the office of Chief Engineer of the Fire Depertment still continues. On Saturday night Mr. Henry Herbner, on the advice of his counsel and some friends, agreed to withdraw from the contest, under the impression that the law would not sustain him. Yesterday, however, under solicitation of others, he determined to retract his withdrawal and test the matter, or stand the test in the courts. This morning he received from Mayor Johnson a communication setting forth that he (the Mayor) regarded Mr. Herbner as the legal. Chief Engineer and would support his claim, notwith standing the action of Council. The Mayor further gave his reasons for contending that Mr. Herboer's election was legal in quite a lengthy document. Meanwhile it is rumored that the matter will be brought to the attention of the Corporation Court at its present term. The necessity of some immediate action is apparent to all, as it is reported to be the intention of the Mayor and Mr. Herbner to use force, if necessary, to enforce the latter's claim to command in case of a fire; and as a resort to force would most probably be resisted on the other side, there would be imminent danger of a riot. The following is the Mayor's opinion re-

ferred to: MAYOR'S OFFICE, ALEXANDRIA, VA., 1

Henry Herbner, esq. Chief Engineer of the Fire Department of Alexandria, Va.:

Sir - In reply to your communication of this date, I unhesitatingly say that I do recognize you as the legal Chi f Eugineer of the Fire Department of Al xandria, Va., for the follow ing reasons, viz: You brought to me from the Clerk of the Corporation Court, at noon on the 1st iostant, a certificate declaring that you had been duly elected by the people Chief Engineer of the Fire Department, and on the faith of that certificate I administered to you the usual eath of office. 2 I recognize no higher power than the people. They are the fit judges of who they want, or do not want, to fill office, and it is not in the province of fifteen twentysix hundredths of a voting population to set aside, on the whim of per-onal friendship and against the power of repeated precedent, the choice for office of the maj rity. The people elected the Chief Engine r of the Fire Department for the first ome twenty four years ago. and continued every year to elect such officer annually for thirteen years in succession. This election by the people of the Chi-f Engineer of the Fire Department was then interrupted for one year by an amendment to the charter giving the election of that officer to the City Council; but such a mode of election was only allowed by the people for one year, and the people again demanded a repeal of the charter next, by Justice Kerby of Fairfax. in order to restore to themselves not only the election of the Chief Engineer of the Fire Deparement, but the election of many other municipal officers. The people then continued the election of Chief Engineer of the Fire Department for five years more, when, without the consent of the voters of the city, the City in their completion.

Council of 1871 presumed to assume to itself There is to be an excursion from Strasburg to the sole right to elect all the municipal officers. including the office of Chief Engineer of the Fire Department. 3. It has been thirty years since the act of retrocession was passed. During that time the various amendments to the city charter gave the City Council the right to elect the municipal officers, now and then, for twelve years, and the people to elect, new and then, such officers for eighteen years; and in all the mutations occasioned by the respective amendments to the city charter, the general statute of 1827 giving the right to the cities and towns of Virginia to form fire departments, was not once brought into application to bar the people from electing, among

ways done by the violence of the arrogance of a majority of the members of the City Council, and not by the consent of the people; and the people have never allowed the City Council to elect the municipal officers for a longer period than that which was comprised in a lawful manner to restore to themselves the power and duy of electing those who were to givern them. Au individual of proper self respect, will not creep and crawl into office, or allow his triends to steal him into place when the evi dences of his senses tell him that he is not the choice of the majority of an honestly expressed election. 4 The candidate whom you defeated at the election of the 25th of May, was willing to submit to a contest for the office before the people, and did not during the canvass, or before his defeat, notify you that he would. in the event of your election, contest your right to the offic ; and had he been elected you would not have heard a word about the application of an effete statute of the Legislature passed tweny years before Alexandria became a part of Virginia, and which has been repeatedly re pealed by conflicting statutes, to the effect that the people could not elect a Chief Engineer of Fire Department, but that fifteen twenty-six tractive. He solicits patronage. Address J.H. hundredths of them could do so after a defeated candidate and his friends appealed to social iefluences to give him a place which he could not get at the hands of the people. 4. The Corporation Attorney is not to be recognized as the tribunal before whom the application of statutes of the Legislature are to be decided. The Court is the place for such decisions, not a mere attorney, but the opinions of many attorneys. Hence it is not at all in the scope of the Corporation Attorney to direct by his opinion decisive action of the Ciry Council on subjects which must, and can be decided alone by a competent court, and until the proper ju-

dicial power decides you not duly elected Chief

Engineer of the Fire Department of Alexan

moved from office by the City Council for mal-

duty, I will continue to recognize you as Chief

Engineer of the Fire Department, and will

treat as a common disturber of the peace any

SUNKEN SCHOONER. - The New York Journal of Commerce learns that the schooner Sun beam, from Calais, Me., for this port, (before reported sunk,) was run into by the Gloucester fishing schooner, Carl Schurz, during very thick weather. Captain Bunker, of the Sunbeam, threw over his deckload of laths and attempted to get his vessel into Cranberry Isles next day, but struck on Rich's Point, where she remains, with her back broken, and fills every tide. She may some off after discharging. The vessel was consigned to Mr. W. A. Smoot, of this city, who, however, lost nothing by the wreck.

NARROW ESCAPE. -Mr. Catbell, of Georgetown, who is second officer on the steamer Lady of the Lake, came near meeting his death, by drowning, at Glymont, yesterday evening. was engaged in taking tickets at the gang plank when the large crowd pressing across it to the boat pushed him off the wharf and into the water, which is quite deep at that point. Mr. Catbel was unable to swim, and would certainly have been drowned had it not been for the heroic conduct of the engineer, Mr. John White, who clambered down inside the wheel and rescued him, just as he was sinking for the last time.

CUTTING AFFAIR, -John and Lewis Young were examined before Justices Hall and Kerby at the office of Justice Brown, in Fairfax county, near this city, on Saturday evening, on the he charge of cutting with intent to maim Jno. Williamson. The cutting occurred during an alterestion at Mount Vernon on the 4th inst. The wound, which was in the left side, was not a serious one, and the Justices not deeming the evidence sufficient to hold the Youngs discharged them.

county organizations." In the old plan the county chairmen were known as "city and county superintendents," and but changes made by the convention in 1873, the italicized words would read, "such committee shall elect a supe intendent " and, in that case, it could no longer be contended that that officer must be a member of the City or County Committee. It is, therefore, the sense of the State Committee, as expressed at its late meeting, that the language, as used in the present plan of organiz tion, should be so construed as to clothe the City or County Committee with full power to go outside of their number and select from the great body of the Conservatives of the city or county the most efficient person to be found to fill the position of city or county chairman. of the State Committee, the cities and counties are called upon to promptly take steps to secure a thorough reorganization of the party. To this end, where such reorganization has not been effected within the present year, meetings should be at once called by the existing committees; or, where there are no such committees in existence, by any Conservatives of the city
